MINISTRY OF ECONOMIC AFFAIRS, LABOUR AND TOURISM

The Ministry of Economic Affairs, Labor and Tourism Baden-Württemberg takes the protection of your personal data very seriously. For this reason, we have taken measures to ensure that the regulations on data protection are observed by us.

## Agreement

### **Photography and video recording at the Start-up BW Summit 2022 event of the Ministry of Economic Affairs, Labor and Tourism Baden-Württemberg.**

I consent to the use, duplication, distribution, exhibition and public reproduction of photographs and video recordings of myself for the purpose of public relations (online and print media, social media) and for the implementation of the Start-up BW Summit 2022 event and transfer to the Ministry of Economic Affairs, Labor and Tourism Baden-Württemberg and the partners involved in the event, such as Landesmesse Stuttgart, the rights required for this, including the right to use these recordings for the aforementioned purposes.

This agreement is voluntary. If it is not granted, this will not result in any disadvantages. This consent can be revoked at any time with effect for the future without formality or in text form (Ministry of Economic Affairs, Labor and Tourism Baden-Württemberg, Schlossplatz 4, 70173 Stuttgart) or by e-mail (poststelle@wm.bwl.de). The revocation of consent does not affect the lawfulness of the processing carried out on the basis of the consent. Please indicate the subject "Start-up BW Summit 2022" when revoking.

In the event of revocation, the personal information will no longer be used for the above purposes in the future and will be deleted immediately. As far as the consent is not revoked, it is valid for an unlimited period of time.

I am aware that records and personal data published online are accessible worldwide, including in countries with a low level of data protection. Further dissemination and use by unauthorized third parties can therefore not be ruled out. In the event that consent is withdrawn, complete deletion of the recordings and data from the Internet cannot therefore be guaranteed.
